

# TCT

The Twitch Chat Translator

Alec Austin  
Charles Kelley

# Our App

- An app that takes a Twitch chat and translates it into another language chosen by the user.
- Allows the user to read a Twitch chat that is in a language the user might not know.
- Messages are re-displayed in a chat format.

# The App

## Twitch Chat Traslator

Click above to go to Twitch and find your channel

Enter the channel name below:

Find Chat

### Translated Chat

First chat message that is going to overflow and hopefully cause a line break

Second chat message

Third chat message

Click above to go to Google Translate

Choose the chat's language and your language from the options below

Translate language: Afrikaans

Translate Chat

# Twitch

- Clicking the Twitch logo will take the user to Twitch's website, where the user can search for the channel with the chat to be translated
- The chat will initially be set to be translated to English

**Click above to go to Twitch and find your channel**

Enter the channel name below:

Find Chat

# Connected to Twitch

Welcome to the chat room!

9:20    DoubleA176: Hello

## Translated Chat

First chat message that is going to  
overflow and hopefully cause a line  
break

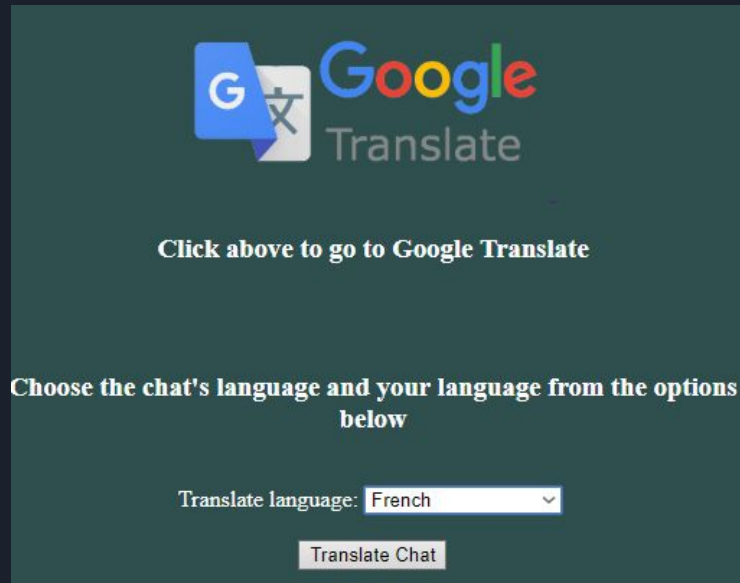

Second chat message

Third chat message

doublea176: Hello

# Google Translate

- Clicking the Google Translate logo will take the user to Google Translate, in case the user would like fast access to being able to translate messages to send to the chosen Twitch chat.
- The translate language dropdown allows the user to select the desired language of the chat.

# Chat Translated

Welcome to the chat room!

9:20    DoubleA176: Hello

9:28    DoubleA176: Hello

9:28    DoubleA176: Hello

## Translated Chat

First chat message that is going to  
overflow and hopefully cause a line  
break

Second chat message

Third chat message

doublea176: Hello

doublea176: Hello

doublea176: Bonjour
